Professional Summary

Detail-oriented Data Analyst with strong skills in SQL, Python, Excel, and data visualization tools. Experienced in transforming raw data into actionable insights through statistical analysis and interactive dashboards. Passionate about solving business problems using data-driven decision making.

Skills

SQL (Data querying, joins, aggregations)

Python (Pandas, NumPy, data analysis)

Excel (Pivot tables, VLOOKUP, data cleaning)

Power BI (Dashboard creation, data modeling)

Tableau (Interactive visualizations and dashboards)

Data Visualization

Statistics (Hypothesis testing, descriptive statistics)

Projects

Sales Data Analysis Dashboard

• Analyzed sales datasets using Python and SQL to identify key revenue trends.
• Built interactive Power BI dashboards to visualize regional sales performance.
• Improved decision-making by highlighting high-performing products and regions.

Customer Segmentation Analysis

• Performed exploratory data analysis using Python (Pandas, NumPy).
• Applied statistical techniques to identify customer behavior patterns.
• Visualized insights using Tableau dashboards.

Education

Bachelor of Technology (Computer Science)

Tools & Technologies
